

## MOU Signing Ceremony

### **“Unleash African Farmers Abilities for a Prosperous Rural Africa”**

---

Dear Media

**African Council for Organic and Sustainable Agriculture (ACOSA) & Chamber of Agribusiness Ghana (CAG)** are pleased to announce that we have entered into a MOU to further strengthen our position in the Agriculture market.

**ACOSA** as the knowledge partner and **CAG** as the executing partner.

This partnership will be centered on the Training, Accreditation, and Certification for **“Organic and Sustainable Agriculture (OSA)”** for vegetables, fruits, nuts, cereals and grains, with the option to include livestock, fowl and fishery.

The association of both organisations is also expected to result in greater efficiencies and significantly increase our market share of Ghana Small Hold Farmers in the Domestic and Global markets. It will also develop various virtual platforms in support of this Agenda.

The Association will acquire Supply Chain Market places/yards in various locations spread over Ghana.

This Association shall also develop a market model for products from trainees under the **“Organic & Sustainable Agriculture (OSA)”** training programs.

Finally, it will create awareness of accreditation, and a process for certification to be accepted globally, under the brand name **“Select Africa”**.
